

SPRING 2019

SPAY NEUTER ALL PETS (SNAP) UPDATE

IT'S ALMOST SPRING

Spring means kittens. They're cute, of course, but many don't find safe homes. The mission of Spay and Neuter All Pets (SNAP) is to save lives by spaying and neutering cats and dogs so fewer end up at animal shelters, abandoned, or born feral. SNAP's goal is to meet the needs of pet owners in Thurston County who contact us to get help paying for spay or neuter surgery for their cats and dogs.

The Annual SNAP Plant Sale will take place on May 25th in the front parking lot of Thurston County Animal Services, 3120 Martin Way E Olympia, WA 98506

PREVENTING UNWANTED LITTERS

So far, 7,912 Thurston County cats and dogs have been spayed or neutered with financial help from SNAP. If they had remained unaltered and each had one average size litter of four, 31,648 potentially unwanted cats and dogs would have been born. If each of those animals had reproduced, the number would grow exponentially so this number is an underestimate.

SNAP was able to help those pets and their owners with the assistance of Thurston County Animal Services and, this year, with the professional services of Scatter Creek Animal Clinic and Chambers Prairie Animal Clinic. Our efforts are also made possible through the generous support of the Albohn Family Foundation, the Bissell Pet Foundation, the Petco Foundation, and The Nisqually Tribe. SNAP thanks the Mary P Dolciani Halloran Foundation, the Lucky 7 Foundation and the Federation of Animal Care and Control Agencies for past support. The ongoing generous donations from state employees who contribute to SNAP through the Combined Fund Drive is greatly appreciated as well as donations from private individuals!

SNAP is a 501 (c) (3) all volunteer nonprofit .You may donate with PayPal at spayneuterallpets.org or send your donation to: P.O. Box 13262, Olympia, WA 98508

All donations are tax deductible and we thank you for your help! If you are a state employee, SNAP is registered with the Combined Fund Drive. The charity number is 1478944.
